## INTRODUCTION

### **1. INTRODUCTION**

The following dissemination and impact plan has been designed according to the recommendations included in the "Communication Erasmus+ Kit" published in Spanish by SEPIE (http://sepie.es/doc/ comunicacion/sepie\_kit\_comunicacion.pdf).

The most important objective of this plan is to be a proactive strategic tool to guide the SELF-IN partners to carry out the dissemination activities, and to evaluate them.

Therefore, the plan is divided into two main sections:

#### a) the first section (from 1 to 9) related to:

- the dissemination activities themselves and goals;
- the levels of dissemination (within the partners, local, national and European);
- the messages and the key project target groups (people with intellectual disabilities, educators, disability community, University professors...)
- b) the second section (section 10), which focuses on how to evaluate the plan and to assess the project impact.

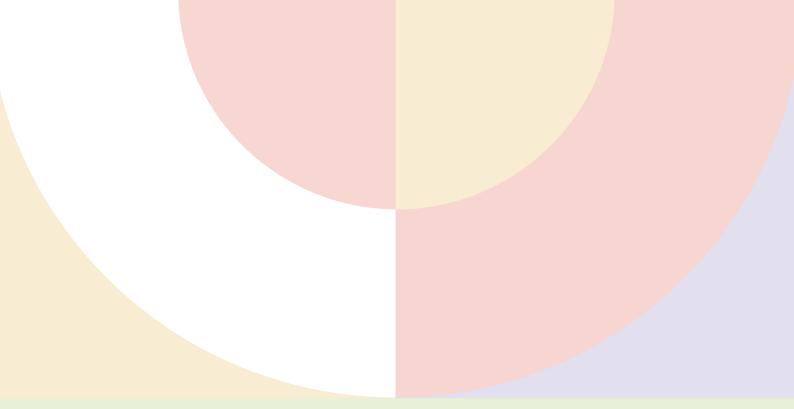

It should also be highlighted that all the dissemination activities have been specifically designed according to the partnership capacities, combining several levels of dissemination and tailor-made activities for of each key project stakeholder. To do so, the project had previously to classify and map the project stakeholders (section 4 of this plan).

Finally, the most important dissemination and impact plan tools are listed in the last section (12. Annexes-tools) and accessible for the steering committee on:

- Dissemination tools (flyer, poster...): https://drive.google.com/drive/ folders/1PHrdISe9VjPFA6StA24y QPTymZrf5OQE?usp=share\_link
- Plan evaluation tools https://drive.google.com/ drive/folders/10g3HmWOG\_ lsi4ZWwjnMQoatwtSC8 xyqo?usp=share\_link.
- Impact tools (SELF-INCA tool, satisfaction questionnaire...): https://drive.google.com/drive/ folders/led0DrKtMrsoQP0WUOI OfRms9hyA4PCUp?usp=share\_link.

#### INTRODUCTION

# SWOT ANALYST

## **2. SWOT ANALYST**

STRENGTHS	WEAKNESSES
<ol> <li>University of Padua reputation and access to academic events and different academic target groups.</li> </ol>	
2. Specific communication departments in each participating organization.	
3. Use of official channels of Valencian and Veneto Regions.	
<ol> <li>Good know-how of European projects dissemination methodologies.</li> </ol>	<ol> <li>10. Lack of expertise in social media.</li> <li>11. Lack of flexibility of IVASS and</li> </ol>
5. Opportunities offered to reach audience through the MOOC course developed by University of Padua	University of Padua. 12. Low number of associate
6. Good reputation of the two disability organization in its territories to influence in other disability organizations.	partners. 13. Partnership with a low number
7. Multiplier events settled in all three countries (Spain, Belgium and Italy)	of partners (only 2 disability organizations) and only 3 countries.
8. Strong links between the 2 participating disability organizations.	countries.
<ol> <li>Dissemination opportunities offered by the European Network of Social Authorities (ENSA) and other key project stakeholders such as University of Valencia or Universitat Politècnica de València.</li> </ol>	
OPPORTUNITIES	THREATS
14. Many European tools and instruments promoting the independence and social inclusion of people with intellectual disabilities.	15. Dependency of IVASS of possible changes in the Valencian Regional Government policies
	16. Pandemic restrictions and opposite community attitudes to participate in public events, lessons, seminars
	17. New Covid-19 waves.

	3. New Covid-19 waves.

OBJECTIVES

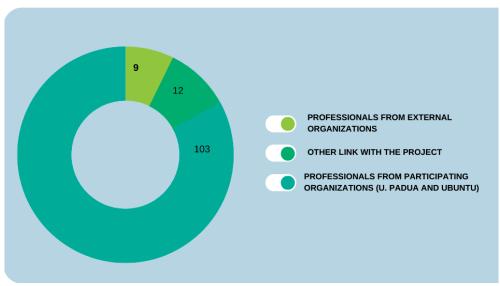

## STAKEHOLDERS MAPPING

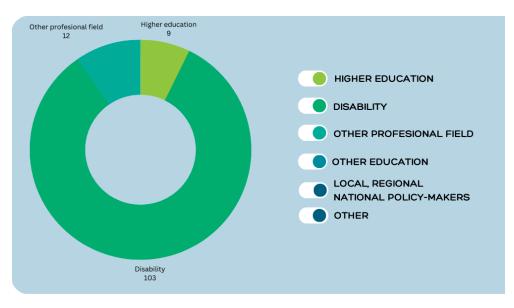

### **4. STAKEHOLDERS MAPPING**

### 4.1. SELF-IN project database: type of organizations which have showed interest in the project.

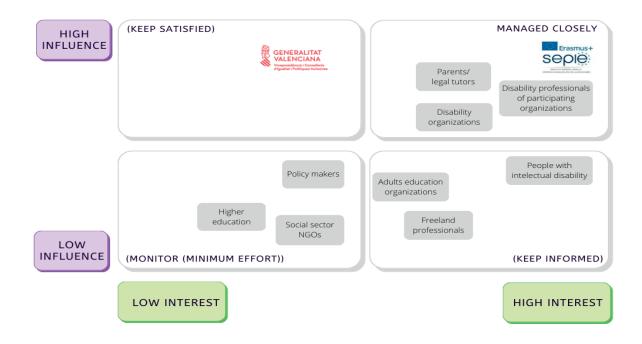

DATABASE: TYPE OF ORGANIZATIONS

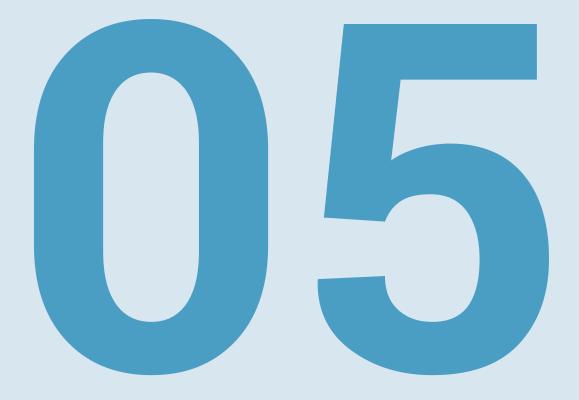

### 4.2. SELF-IN project database: field of activity of stakeholders organizations.

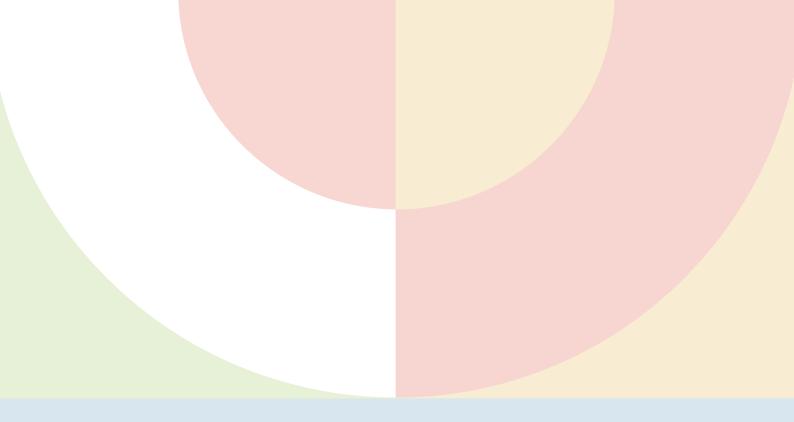

**STAKEHOLDERS MAPPING** 

#### 4.3. SELF-IN Stakeholders mapping.

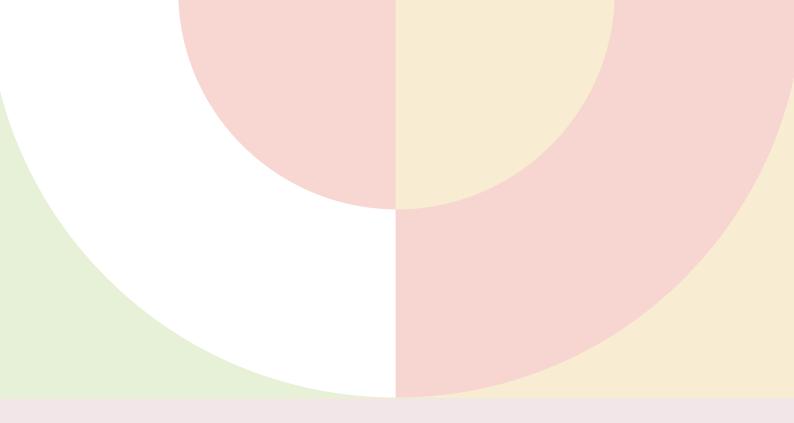

## DISSEMINATION TARGET GROUPS AND MESSAGES

### 5. DISSEMINATION TARGET GROUPS AND MESSAGES

TARGET GROUPS	DESCRIPTION	TOPICS
intermittent SUPPORTS in the account is needed to live independently in Language and reading skills of the primary school.         People with intellectual disability	PWID participating in the project. Persons who intermittent SUPPORTS in the acquisition of skills is needed to live independently in the community. Language and reading skills of the second level of primary school.	Short and accessible messages with pictograms and images, interactive activities, games Benefits of taking part in self- management programs.
	PWID of associated partners or belonging to other external disability organizations.	Concepts of rights, independence, self- determination and social inclusion. Democracy life, European Union, Erasmus+ programme and its horizontal principles (environmental sustainability, social inclusion and digital dimension).
Disability professionals and educators	Professionals having direct contact on regular basis with PWID. Their tasks might differ depending on the type of provider (institutional or community-based service) and the target group needs. (European Union Agency for Fundamental Rights, 2017) The most common occupations working directly with PWID are: psychologist, social worker, (special) educator, care-giver, outdoor animator, nurse, physiotherapist, occupational therapist, social care coordinator, workshop teacher, employment mediator, director- psychologists of occupational centers, pedagogues, and	Self-in project and its activities. Benefits of self-management programs, metacognition and motivational orientation as approaches to improve the quality of life, independence and social inclusion of PWID. Pedagogical resources developed by the SELF-IN project. Erasmus+ programme and its horizontal
Decision- takers	Persons who can alter the activities and may commit to resource allocation: a) managers and coordinators of participating organizations; b) managers and coordinators of disability external organizations; and c) local, regional, national and European public representatives.	principles (environmental sustainability, social inclusion and digital dimension). Impact of SELF-IN activities on PWID, its educators and disability organizations. Link of the project with the Convention UN, disability strategy and other legal and disability instruments. Resources needed (facilities, mainstreaming services, resources allocation) and demands expressed by PWID to improve their quality of life.

Wider social, education and disability community	Special employment centers, disability organizations, non-governmental associations, health care services, local mainstream services, occupational centers, disability professionals associations, vocational training centers, social economy sector and elderly services.	Self-in project and its activities. Benefits of self-management programs, metacognition and motivational orientation as approaches to improve the quality of life, independence and social inclusion of PWID. Pedagogical resources developed by the SELF-IN project. Erasmus+ programme and its horizontal principles (environmental sustainability, social inclusion and digital dimension).
Academic field	Researchers and professors of research centers, faculties of psychology, nursing, pedagogy, education and sport sciences, physiotherapy, teacher training and social work.	Self-in evidence-based model approach (QoL, self-management program, metacognition, LifeComp framework) pedagogical methodologies developed and impact of the project activities on the quality of life of PWID.
Relatives and friends of PWID	Persons belonging to the PWID microsystem, which is the smallest and most immediate environment in which PWID live (home, school or daycare, peer group and community environment).	Relevance of the project activities to improve the social inclusion, independence and self-determination of PWID.
SEPIE	Erasmus+ educational community: users, educators, learners, technicians, staff Use of Erasmus+ platforms (eTwinning, EPALE) and instruments (Newsletter SEPIE, radio Erasmus+, Café viajero Erasmus+ and Erasmus days).	SELF-IN information, Erasmus+ horizontal aspects, accessible contents for PWID experiences abroad, and results achieved and produced.

## DISSEMINATION ACTIVITIES

### 7. DISSEMINATION ACTIVITIES

#### 7.1. DISSEMINATION ACTIVITIES BY TARGET GROUP

DEVELOPMENT OF A STAKEHOLDERS "SELF-IN DATABASE"	Al. 120 external stakeholder organizations interested in SELF-IN activities. To be included in this database, stakeholders will have to fill out a 5-minute Google questionnaire approving their participation in the project and providing key information to understand their interest in the project. This database will allow the project: a) to map the SELF-IN stakeholders. b) to tailor -even more- the dissemination activities, language, messages and channels; c) to consult them, follow-up and evaluate the dissemination activities; d) to keep them informed, sending information on regular bases (every 6 months) and to send them the FINAL PRODUCTS; e) to invite them to the multiplier events; and f) to ask them after the end of the project to give feed-back about the project impact and sustainability.
PEOPLE WITH INTELLECTUAL DISABILITIES (PWID)	<ul> <li>B1. Study visits to external disability centres to explain the SELF-IN project to PWID.</li> <li>B2. One Facebook page to be used by Spanish and Flemish learners and educators together.</li> <li>B3. SELF-IN ERASMUS+ BRANDING KIT to be used by educators and PWID during the project activities: T-shirt, table flags, notebooks and poster.</li> <li>B4. Visit of PWID to European Institutions in Brussels.</li> <li>B5. Visits by a delegation of PWID, per country, to a regional or local institutions.</li> <li>B6. Participation of PWID in the ENSA General Assembly.</li> <li>B7. Participation of PWID in the multiplier event as lecturers.</li> <li>B8. Accessible easy-to-read poster.</li> </ul>
DISABILITY EDUCATORS	<ul> <li>C1. Specific reports for educators disseminated through the ENSA Network and the SELF-IN database.</li> <li>C2. Physical and online interviews with external disability educators to explain the project.</li> <li>C3. Participation as lecturers in public national events (seminars, multiplier events, visits) addressed to disability educators.</li> </ul>

#### **DISSEMINATION ACTIVITIES**

ACADEMIC FIELD	<ul> <li>D1. Specific reports for professors disseminated through the University of Padua, University of Valencia and the stakeholders involved in the "SELF-IN database".</li> <li>D2. Physical and online interviews with persons of the academic field to explain the project.</li> <li>D3. Participation as lecturers in public national events (seminars, multiplier events, visits) addressed to academic sector.</li> </ul>
DECISION-TAKERS	E1. Physical and online interviews with national and European politicians and decision-makers.
SOCIAL MEDIA AND WEBSITES	<ul> <li>F1. SELF-IN website.</li> <li>F2. Development of a specific section in UBUNTU website.</li> <li>F3. Press releases to local media.</li> <li>F4. Social media of participating organizations (Facebook, Instagram and Twitter)</li> <li>F5. Multiplier events.</li> </ul>
ERASMUS+ COMMU. INITIATIVES	G.1. Contribution/participation in Erasmus+ communication initiatives and platforms (Erasmus+ platforms (eTwinning, EPALE) and instruments (Newsletter SEPIE, Radio Erasmus+, Café viajero Erasmus+ and Erasmus days.) University of Padua to INDIRE; and UBUNTU to EPOS.
FINAL DISSEMINATION	H1. Email to stakeholders and internal and external disability educators to disseminate the project results and the project conclusions.

#### 7.2. DISSEMINATION ACTIVITIES BY LEVEL OF DISSEMINATION

# MESSAGES/ TOPICS

# 8. MESSAGES/TOPICS

## To People with intellectual disabilities (PWID):

Short and accessible messages with pictograms and images, interactive activities, games...

Benefits of taking part in self-management programs.

Strengthening of concepts of rights, independence, self-determination and social inclusion.

Democracy life, European Union, Erasmus+ programme and its horizontal principles (environmental sustainability, social inclusion and digital dimension).

#### To disability professionals and educators:

Self-in project and its activities.

Benefits of self-management programs, metacognition and motivational orientation as approaches to improve the Quality of Life (QoL) of PWID.

Pedagogical resources developed by the SELF-IN project.

Erasmus+ programme and its horizontal principles (environmental sustainability, social inclusion and digital dimension).

#### To decision-takers:

Impact of SELF-IN activities on PWID, its educators and disability organizations.

Link of the project with the Convention UN, Strategy for the Rights of Persons with

Disabilities 2021-2030 and other legal and disability instruments.

Resources needed (facilities, mainstreaming services, resources allocation) and demands expressed by PWID to improve their Quality of Life.

#### To wider social and disability community:

Self-in project and its activities.

Benefits of self-management programs, metacognition and motivational orientation as approaches to improve the quality of life of PWID.

Pedagogical resources developed by the SELF-IN project.

Erasmus+ programme and its horizontal principles (environmental sustainability, social inclusion and digital dimension).

#### To academic field:

Self-in evidence-based model approach (QoL, self-management program, metacognition, LifeComp framework) pedagogical methodologies developed and impact of the project activities on the quality of life of PWID.

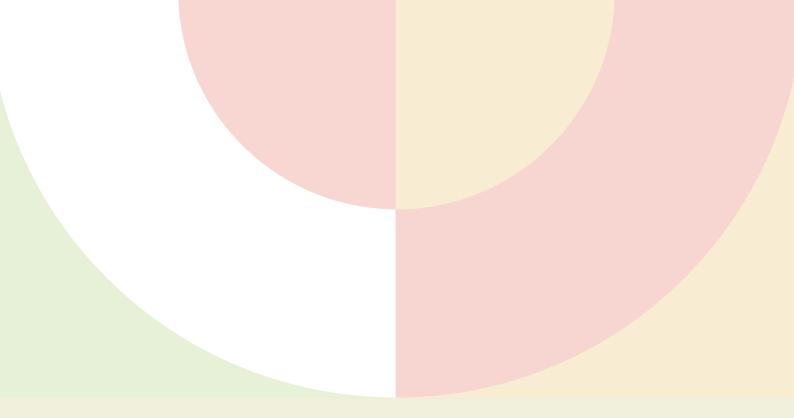

## To relatives, legal representatives and friends of PWID:

Relevance of the project activities to improve the social inclusion, independence and selfdetermination of PWID.

PWID satisfaction and improvements achieved.

**PLAN EVALUATION** 

#### IVASS will produce 3 impact assessment reports:

- 1. First impact report. (January 2024). Including the impact expected on C1 and NT1 and NT2.
  - 1.1. Impact on educators participating in C1 (Padua):
    - Satisfaction and usefulness of PR1 and PR2;
    - Satisfaction with the training course;
    - Competences acquired;
    - Corrective measures proposed.
  - 1.2. Impact on PWID taking part in NT1 and NT2.
    - Satisfaction of PWID taking part in NTI and NT2;
    - Competences acquired by PWID after taking part in NTI and NT2, according to the SELF-INCA tool.
- 2. Final impact report. (January 2025)
  - Competences acquired by PWID according to the SELF-INCA tool;
  - Satisfaction, usefulness of project results and general improvement of internal disability educators (UBUNTU and IVASS) taking part in the SELF-IN project (group discussions).
  - Satisfaction and improvement of the quality of life of PWID thanks to the project;
  - Usefulness (expectative of use) according to participants in the multiplier event.

# 10.6. DISSEMINATION AND IMPACT PLAN: TOOLS AND OBJECTIVE

DISSEMINATION TOOL	OBJECTIVE	WHEN IS IT EXPECTED TO BE USED	
1. DT1 "Dissemination activities report"	To report partners about the dissemination activities developed at national level.	10 <sup>th</sup> May 2023; 10 <sup>th</sup> of December 2023; 31 <sup>st</sup> January 2025. (Last one must be signed by the legal representatives of participating organizations)	
2. SELF-IN ERASMUS+ BRANDING KIT to be used by educators and PWID during the project activities: flags, poster, Erasmus+ plaque (30x30cm), sticks, notebooks done by PWID	General dissemination of the project. To disseminate the project among PWID. To disseminate the Erasmus+ horizontal aspects.	Second half of the project.Internal and external events.Visits to external organizations.Each public event (interviews, multiplier events, visits, group discussion, SLP) in which PWID participate.To create the database (End 2022 and beginning 2023). Multiplier event (end of the project). All public events.End 2022 and beginning 2023C1, NT1, NT2, multiplier events, Self- management learning programs, group discussions, dissemination public eventsMultiplier event (end of the project)	
3. SELF-IN brochure for people with intellectual disabilities.	To make visible the SELF-IN project, Erasmus+ horizontal priorities and democratic life to people with intellectual disabilities.		
4. SELF-IN Brochure for stakeholders	To create de key external stakeholders database. General dissemination of the project.		
5. Stakeholders database questionnaire.	To recruit stakeholders for the database.		
6. DT2. Participants list.	To provide evidences about the SELF-IN external and internal groups participation; and public events developed by the partners, overall the multiplier events.		
7. Registration form to SELF-IN multiplier event.	To register external participants taking part in the national multiplier events.		

PLAN EVALUATION

8. Specific reports for educators disseminated through the ENSA network.	To keep informed European disability educators about the SELF-IN progress. To disseminate the products.	02/2023; 12/2023; 12/2024	
9. Specific reports for academic fied.	To disseminate the project within academic field	12/2023; 12/2024.	

Dissemination tools

IMPACT TOOL	OBJECTIVE	WHEN IS IT EXPECTED TO BE USED		
SELF-IN IMPACT ON PEOPLE WITH INTELLECTUAL DISABILITIES				
Accessible satisfaction questionnaire for PWID. ITT	ion To assess the degree of satisfaction of the SELF-IN activities in After NTI/NT2; and a which PWID from are involved participation in SLP (participating organizations and 2024) associates).			
Guide for group discussions for PWID (PR3). IT2	To guide moderators to lead the discussion groups and obtain the best possible conclusions. To develop homogeneous discussion groups.	PR3 (discussion groups) September/October 2024.		
SELF-INCA tool (IT3)	To evaluate the competences acquired by PWID taking part in the project (NTI, NT2 and SLP)	3 passes: a) at the beginning of NT1/NT2; b) at the end of NT1/NT2; c) 3 months before finishing SLP (October 2024)		
SELF-IN IMPACT ON EDUCATORS T	AKING PART IN THE PROJECT			
Guide for group discussions for educators (PR3). (IT4)	To guide moderators to lead the discussion groups and obtain the best possible conclusions. To develop homogeneous discussion groups.	PR3 (discussion groups) September/October 2024.		
C1 competences assessment tool. (IT5)	To assess the competences acquired by educators during C1.	At the end of C1 (June 2023)		
SELF-IN satisfaction questionnaire for educators taking part in C1. (IT6)	To assess the degree of satisfaction and options to be implemented SELF-IN methodologies and educative resources in the educators working daily life.	At the end of C1 (June 2024)		
ELF-IN satisfaction questionnaire or educators taking part in SLP. T7) To assess the degree of satisfaction and options to be implemented SELF-IN methodologies and educative resources in the educators working daily life.		At the end of SLP (10/2024)		

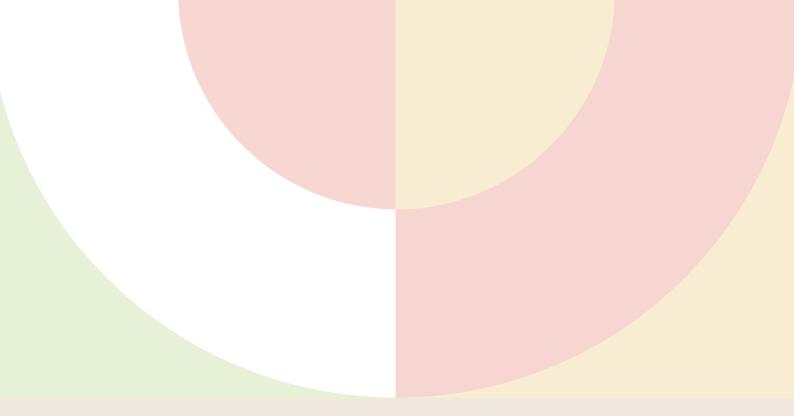

PLAN EVALUATION

SELF-IN IMPACT OF THE DISSEMINATION STRAGEY ON THE PLAN				
SELF-IN steering committee about the dissemination strategy.	To assess the degree of satisfaction of the steering committee with the plan and dissemination activities	March of 2023; December 2023; and December 2024		
SELF-IN IMPACT ON EXTERNAL STA	KEHOLDERS			
Multiplier event participant's satisfaction form. <mark>(IT8)</mark>	To assess: a) satisfaction of the participants; b) quality of the project results; c) usefulness of project results for disability educators: c) the integration of PRs into external organizations.	Multiplier event (end of the project).		
Stakeholder satisfaction survey. (IT9)	To assess the satisfaction of stakeholders included on the database.	After the multiplier event (January 2025).		

Impact tool

# PARTNERS REPORTING

# **11. PARTNERS REPORTING**

#### Dissemination activities progress reporting.

Partners will have to report 3 times about the progress of the dissemination activities:

- 10th of May 2023;
- 10th of December 2023;
- 31th of January 2025.

The evaluation schedule and the activities can be seen in the following table. These activities can be also seen in the Management Plan.

EVALUATION 1	
Partners to send the template D1 "Dissemination activities report" reporting of the progress of the dissemination activities. (Evidences must be included)	10th May 2023
IVASS circulating a summary report with the dissemination activities progress and corrective measures.	15th July 2023
IVASS updating the dissemination and impact plan	July/August 2023

EVALUATION 2	
Partners to send the template D1 "Dissemination activities report" reporting of the progress of the dissemination activities.	10th December 2023
(Evidences must be included)	
IVASS circulating a summary report with the dissemination activities progress and corrective measures.	15thJanuary 2024
IVASS updating the dissemination and impact plan	February 2024

FINAL EVALUATION	
Partners to send the template D1 "Dissemination activities report" signed by the legal representative reporting the dissemination activities done during the project. (Evidences must be included)	31st January 2025
IVASS producing a report to be attached to SEPIE final report.	10th February 2025

#### PARTNERS REPORTING

#### In addition:

• IVASS will produce 3 dissemination reports to be circulated among stakeholders and disability educators:

> First report: 02/2023 Second report: 11/2023 Third report: 12/2024

• University of Padua will produce a report to be circulated within the academic field (12/2023).

#### **Multiplier events**

According to SEPIE, the partnership must provide a description of the multiplier event, the intellectual outputs covered, the leading and participating organizations, the venue of the meeting and the numbers of local and international participants. (Annex III: Financial and contractual rules)

Only participants from organizations other than the beneficiaries can be counted in for the number of eligible persons taking part in the event.

It will be mandatory that UBUNTU and University of Padua send to IVASS:

- SELF-IN Participants list with:
  - Name, date and place of the event.
  - Name and signature of the participants.
  - Name of the organization that represent.
- SELF-IN Multiplier Event participant's satisfaction questionnaire in national language.

- Meeting agenda.
- All the documents and materials delivered in the event (slides used...)
- Report in English covering:
  - dissemination effort (letters, press releases, social media posts, brochures...);
  - summary of the event features and project results covered;
  - conclusions about foreseen transferability and impact of the project activities;
  - summary of participants professional characteristics;
  - evaluation of types of participating organizations;
  - conclusions of the participants satisfaction evaluation;
  - event publicity: dissemination
     effort done before the event;
  - event impact achieved on mass media after the event;

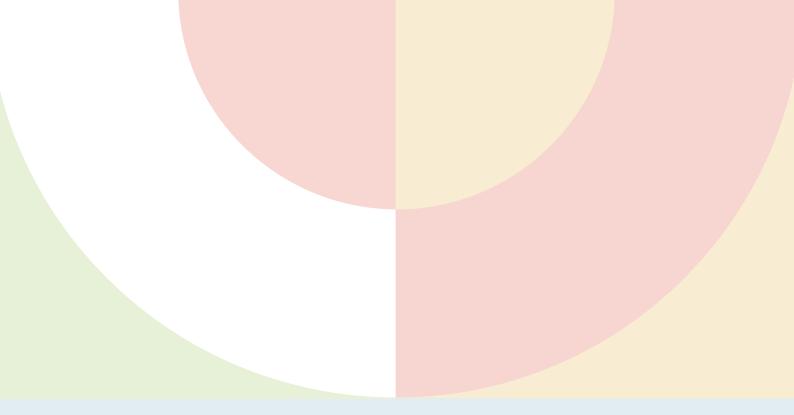

#### Evidences.

Partners are requested to provide evidences of all dissemination and impact activities (photos, agendas, participants list dully signed by participants, press releases, posts, screenshots...)

In addition, the legal representative of participating organizations will have to sign at the end of the project (final evaluation) the "DTI. Dissemination activities report" in order to confirm the dissemination activities achieved by the organization.
